## EDUCATION

**The Hong Kong University of Science and Technology**  
*BEng in Electronic Engineering - Minor in Information Technology*

Hong Kong  
*Sept. 2020 – Present*

## RELEVANT COURSEWORK

- Programming with C++
- Object-Oriented Programming and Data Structures
- Intro. to Computer Organization and Design
- Computer Communication Networks
- Deep Learning in Computer Vision
- Machine Learning and Information Processing for Robotics

## SKILLS

**Programming Languages:** C++, Javascript, Python, HTML/CSS

**Tools/Platforms:** Git, Docker, Linux, AWS (DynamoDB, Lambda, API Gateway, EC2, S3)

**Languages:** English (Native)

## WORK EXPERIENCE

### IoT Intern | Graphite Venture Limited

*December 2022 – May 2023*

- Developed Arduino libraries for reading water sensor data with ESP32 and sending sensor data to AWS IoT Core through MQTT with a SIM7600G module.

### Electronic Engineering Intern | Kolour Think Tank

*August 2023*

- Developed a digital utility meter reader that takes images of a utility meter with an ESP32-CAM, sends the image to AWS S3, reads the meter reading with AWS Rekognition, and stores the data in AWS DynamoDB.

## PROJECTS

### Air Quality Monitoring Dashboard

- A fullstack project that stores and displays my home's air quality sensor data on a DynamoDB database using AWS services.
- Data on DynamoDB is stored and retrieved using REST API with API Gateway and Lambda.
- Front-end uses HTML, CSS, and Javascript to call and display data from API.

### To-Do List

- Created a to-do list website using Django framework with user authentication.
- Deployed Django application on an AWS EC2 instance with Docker using Gunicorn, Nginx-Proxy, Letsencrypt, and Postgres as database.

### Mini Robot Cleaner

- Created a robot car with a STM32 board that can be wirelessly controlled through UDP or can roam autonomously
- Integrated the bubble rebound algorithm for avoiding obstacles in free roam mode using 3 ultrasonic sensors
- Used Python for socket programming and PyQt5 to create GUI to control robot wirelessly

## EXTRACURRICULAR ACTIVITIES

- HKUST Football Team *Jan. 2021 - Present*
